

GORILLAS WRESTLING

Dear Friend of Gorilla Wrestling:

My name is Brian Fettig. I have been the head assistant coach for nine years and this year I have taken over as head coach of a wrestling club for kids called the "Gorillas." We have been in existence now for eleven years and each year our enrollment increases. I have taken over this club because I believe strongly that wrestling teaches kids many of the needed life skills so often lacking. They learn dedication, hard work, sportsmanship, responsibility, as well as individual perseverance. Because of this belief, it was my goal to offer club wrestling to all who wished to attend, and give each one the individual attention they require.

The issue we are faced with, however, is that every year, the costs of equipment, uniforms, and operations keep increasing. We have adopted the commitment of allowing all young boys and girls to participate even without the necessary funds. I realize that if I raise my enrollment fee, I could have more money to operate with, but I have been very committed to keeping my fees at about half the cost of other wrestling clubs in town.

It is for this reason I ask for your assistance. I am asking area business leaders to consider contributing to a fund that would not only help operate the club but also enable dedicated young boys and girls no matter what income level the parents are to fully participate in this sport. Because I believe that it has a positive effect on them as kids, students and citizens.

I am asking for your support for these young people, in any size donation you would wish to make.

Thank you for your time in considering this request and your willingness to help kids in our community.

Sincerely,

*Brian Fettig
Gorilla Club Head Coach*
